the bones of many venturesome men are now bleaching on the sands as a result of their inordinate thirst for gold.

Gold Hill, as the new mine has been christened by Carter and his colleagues, was discovered some time in July. It is literally a mountain of gold, and is practically inexhaustible. The base of the mountain is 5,000 above sea level, and rises to a height of about 1,000 feet, being one mile and a half in circumference, on a rough estimate. The quartz formation is capped with granite, on removing which the ore is exposed in unlimited quantities. The deposit is similar to that at Virginia City, being what is known as a "blow-out."

Winters to hold his claims, and and C. A. Winters to hold his claims, and at once returned. During his absence these men deserted their employer and located claims for themselves. They also struck it rich, but being without funds, brought in about fifty pounds of ore, and interviewed R. B. Taylor and the struck of the struck o claims for themselves. They also states it rich, but being without funds, brought in about fifty pounds of ore, and interviewed R. B. Taylor, of Riverside, to whom they showed specimens of theore and endeavored to sell their claims to him; but Taylor was posted, and knowing that they had no right to locate mines while employed by others, would have nothing to do with them. Efforts have been made to interest moneyed men in the find, but the district is so isolated and difficult of access that nobody has undertaken to follow it up. The region is an absolute desert and there is no water anywhere near it. Only a few miles further on is the famous Death valley, which has been the cause of so many lives being lest. Many years ago there was an expedition to the deadly valley. Most of the travelers died before reaching it, and only a few ever returned to tell the tale of disaster and devasd to tell the tale of disaster and devas-

The Iron Duke to His Soldiers.

"Do your duty," were the words of Lord Wellington to his soldiers just before the battle of Waterloo and history tells us how

themselves. It is not for want of honor nor because they do not love their families, but from pure neglect; as an instance, but from pure neglect; as an instance, statistics compiled by the national authorities show that more deaths result from bowel complaints than any other one cause, except consumption, yet not more than one family in six are provided with medicines that will relieve or cure the discusses. It is the duty of every man to look after these small matters, and protect their families, and they are certainly, at least guilty of criminal carelessness if they neglect to do so. No one can plead poverty in this instance, as the best remedy there is for the purpose only costs but 25 cents. The article we refer to is Chamberlain's

Colic, Cholera and Diarrhœa Remedy. It is a certain cure for cramps, colic, cholera morbus, dysentery, diarrhœa, bloody flux, cholera infantum, and bowel complaint in all its forms. No family can afford to be without it during the summer months as great suffering and even life may be saved by it before a physician could be summoned or medicine procured. Do not delay, but procure it at once, before it is forgotten.
